HAVERTOWN, PENNSYLVANIA

AS BERNARD

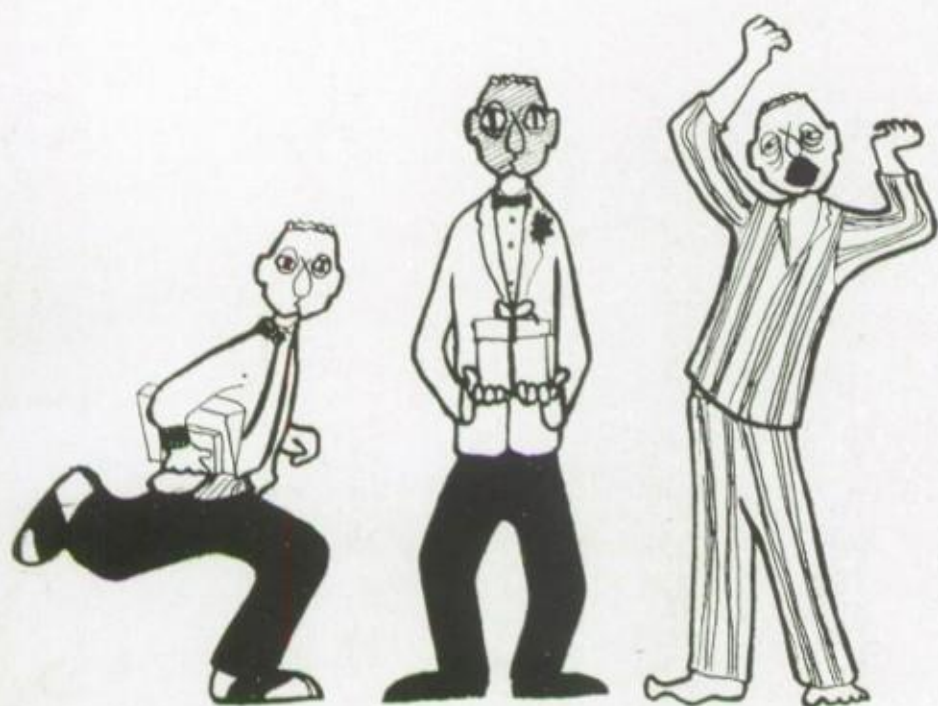

SEES IT

In planning GREYSTONES 1957, the staff endeavored to present a true-to-life account of school life at H.H.S. To accomplish this, an all-school search was conducted to find the typical Haverford High School student. He had to be a composite of all the outstanding characteristics of the students of this school. After a thorough search, the perfect student was found—Bernard!

Whenever an occasion arose where it was deemed necessary to have a representative of the class present, Bernard was called to duty.

As the reader opens GREYSTONES, Bernard is there to greet him and lead him through the pages of administration, seniors, activities, sports, and underclassmen.

MISS AGNES McMAHON

GREYSTONES of 1957 is dedicated to Miss Agnes McMahon not only in recognition of the wise counsel and patient guidance which she has so generously given, but also in appreciation for her unceasing interest in "her girls."

Throughout the years, Miss McMahon, as Dean of Girls, has cheerfully solved the problems and directed the efforts of countless numbers of Haverford High School girls.

As she retires, we hope she will derive a deep and lasting satisfaction from the knowledge of a job well done.

Thelma Titus
For the Student Body

Agnes McMahon has been a member of the Senior High School faculty for some thirty years and has served as Dean of Girls for the past quarter century. In that time thousands of girls, and in some cases daughters of those girls, have known her as a teacher, a counselor, and a confidante.

As a teacher of French and author of an anthology, she has demonstrated her erudition. As a counselor, she has shown thru sympathetic, wise, and friendly guidance her love and understanding of her "girls." As a confidante of faculty and students, she has shared many "secrets."

She has also participated, both directly and indirectly, in all school activities. For many years she was sponsor of the Social Committee and, as such, planned dances, "All School Shows," Christmas observances, etc. Her many contacts in colleges and business establishments have aided the "placement" of many students.

Agnes has a sunny and infectious smile, a pleasant and warm personality, an enthusiastic and boundless vitality—in short, she is the ideal Dean.

We shall miss her!

John Walker
For the Faculty

In Appreciation

HAROLD W. MUSSER

After some forty years of teaching, the last twenty-five of which were in Haverford Township, Harold Musser has earned a well merited retirement. Known to thousands of Haverfordians as a teacher of biology and of the outdoors, he has in recent years returned to his original field of mathematics.

He was known for his devotion to partisan politics, to firearms, and to his native county. He was positive yet self-effacing, meticulous but not fastidious, methodical yet carefree, learned yet not pedantic—his teaching reflected all these, and earned the love and respect of his students.

All of us wish him well!

John Walker.

Mr. Arthur Bawn is withdrawing from the teaching profession at this time in order to "retire" to Florida.

Quiet and unassuming in manner, conscientious and loyal in his professional responsibilities, a devoted and faithful friend—Mr. Bawn has earned the respect of all who come in contact with him, whether in the classroom, at evening or summer school, or at athletic contests.

The faculty wishes him much happiness and continued good health in the years ahead!

John Walker.

ARTHUR R. BAWN

Dear Mr. President,

I have been asked by the Class of 1957 to express to you and the rest of the School Board our appreciation for the time and effort that you have expended in providing us with an excellent educational system. As we are being graduated, we realize that if we have utilized the facilities and the faculty that you have provided for us, we will face the future with confidence and superior preparation.

Class Message

To My Fellow Classmates:

I am sure you can all recall the fine football team we had this year. What made this team such an outstanding one? Well, most of all it was teamwork. Teamwork is necessary for any objective that you wish to obtain in life.

When we graduate, we shall be splitting up a team. Together over the past three years, this class has made a record that will long be remembered by all. But don't think that because of graduation the teamwork is over. For after graduation we will all be joining new teams that require even more teamwork to keep them operating smoothly. I hope that we have all received a strong foundation and have learned how to co-operate with others for good team spirit, a spirit which I trust will make our lives more joyful and complete.

Al Nystrom

Class President of '57

Council Message

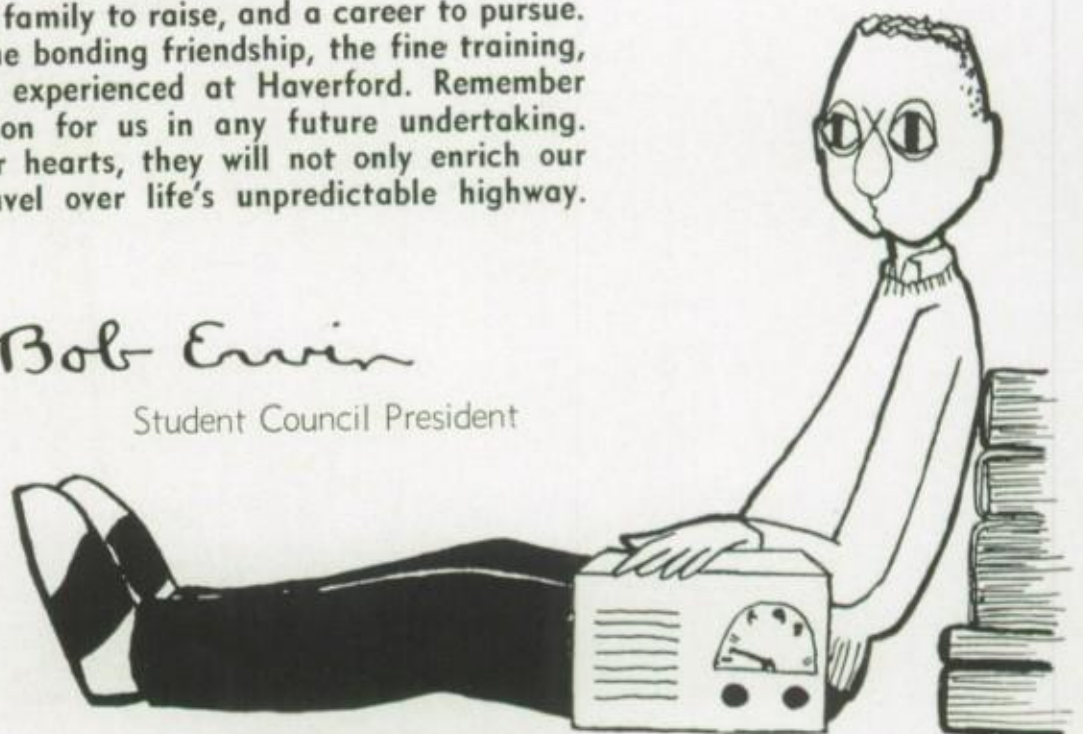

Commencement, as the word implies, is a beginning, not an ending. We are leaving the place that has played a major role in our lives during the past three years, and shall be saying goodbye to people whom we will not be seeing for a long time. Aside from that, commencement is our first big push into adulthood. It is a time when we start to realize the responsibilities that must be faced in order to grow up. It is a time of deep thought and pleasant reminiscence.

Some of us will go to college, others will find a job, still others will join the service. Beyond that there may be marriage, a family to raise, and a career to pursue.

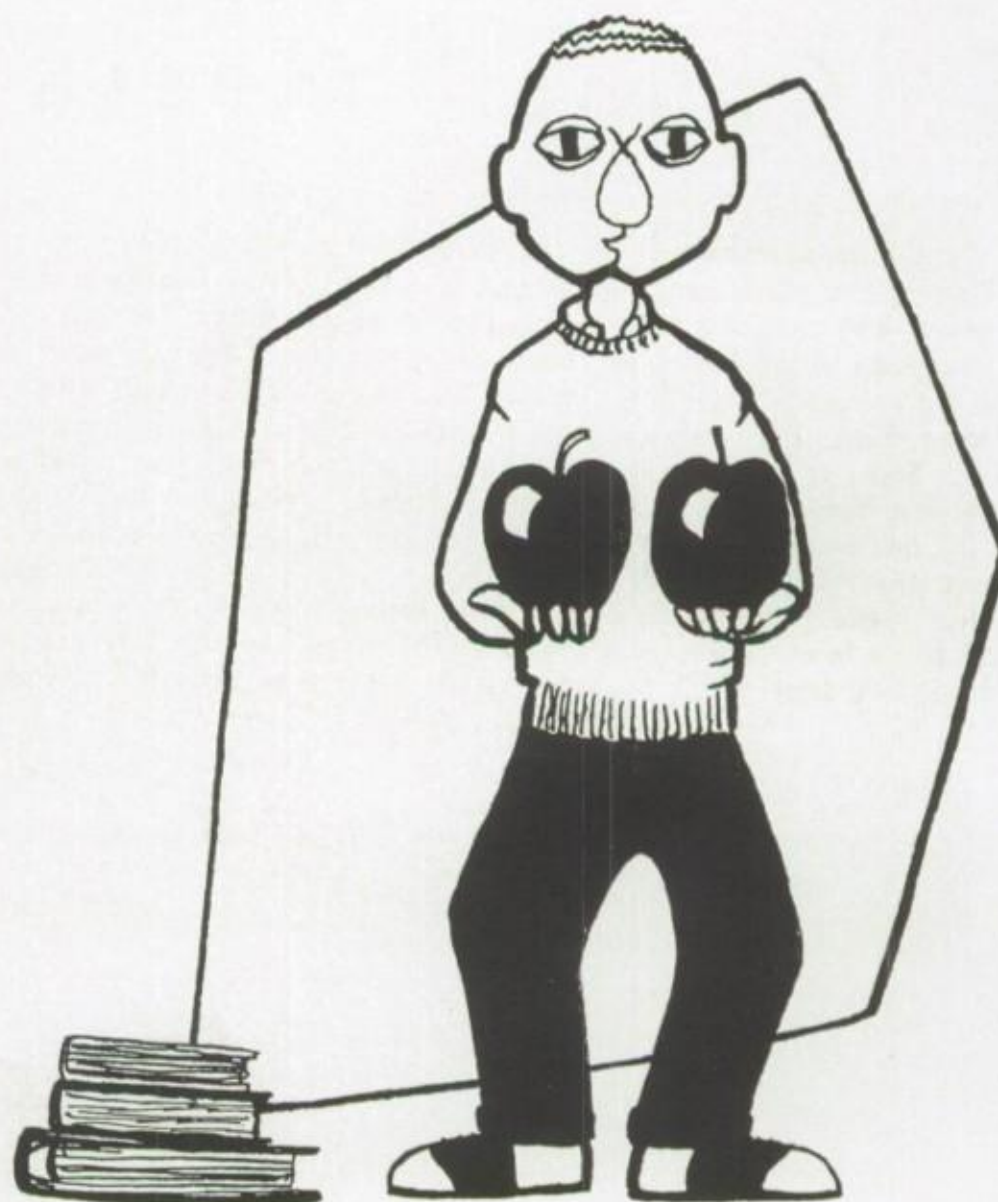

Let us never forget the rich happiness, the bonding friendship, the fine training, and the rewarding school life that we have experienced at Haverford. Remember that these things have laid a firm foundation for us in any future undertaking. If these fond memories always remain in our hearts, they will not only enrich our lives, but they will also guide us as we travel over life's unpredictable highway.

Bob Erwin

Student Council President

THE LAST WORD

On the Other

PAUL R. SLATER, Ed.D.

Dr. Slater, as Superintendent of Schools, is the official representative of the Board of School Directors. His primary job is the improvement of instruction in the Haverford Township Public Schools. He is also responsible for recommending the erection of sufficient school buildings and classrooms, for securing properly trained teachers, for employing an efficient maintenance staff, and for providing classroom supplies. In addition to this work, Dr. Slater meets all people who wish to do business with the school district. He interviews parents, visits the schools in the township, and prepares the annual school budget.

Dr. Slater's office staff is composed of two secretaries who take care of all correspondence, maintain records of teachers' certification and salary schedules, and keep personnel records of both professional and non-professional employees.

The Superintendent of Schools also issues working permits to students under eighteen years of age, who wish to secure part-time employment. He is responsible for planning the whole program of education from the first grade through the twelfth grade.

DR. SLATER CONFERS WITH STAFF
Mr. Rice, Dr. Slater, Mr. Walter.

Side of the Desk

Probably all students have had some contact with either Mr. Walker or the members of his staff, Miss McMahon, Mr. Stinson and Mr. Hill.

Our principal, Mr. Walker, is the general staff supervisor. Among many important jobs, he sits in on the Student Council Executive Committee meetings.

Miss McMahon, the dean of girls, offers guidance to the girls of all three classes. During the junior year, she confers with parents about Drexel Test results. Miss McMahon's college bulletin library gives many students new ideas for their future schooling.

Mr. Stinson, assistant principal, is the head of the Athletic Association and also teaches a class in European International Relations.

The dean of boys, Mr. Hill, gives guidance to the boys, in much the same manner as Miss McMahon guides the girls. As an extra activity, he is the sponsor of the Boys Hi-Y.

We feel very fortunate in having such congenial personnel at the head of our high school.

Mathematics

Every day mathematics are becoming more and more important in this modern world in which we live, and Haverford's well-qualified staff is doing its part in acquainting its students with the various fields of mathematics.

General mathematics, offered to those who do not wish to pursue higher learning, is taught by Mr. Harter. For students who missed elementary algebra in junior high, this course is offered again in the high school.

As the degree of difficulty is increased, plane geometry and intermediate algebra are next in line. These courses of study are under the supervision of Miss Collins, Miss Wiener, Mrs. Johnson, and the Messrs. Dobransky, Howarth, and Musser.

The ultimate goal in the field of math at Haverford is to pass solid geometry and trigonometry. Both these courses are one semester each, and are taught by Mr. Howarth. As one looks in on a "solid" or "trig" class, he may find among the multitude of boys one or two courageous, but bewildered, girls. We are proud of the fact that Haverford is one of the few schools in this area which offers a course in trigonometry.

For the first time, this year an auditor course (one in which no mark is given) in college algebra was offered. It met with such enthusiasm that perhaps this course eventually will become a permanent part of our mathematics program.

History

"1066! 1492! 1588! 1789! 1815! Dates, dates, and more dates. Why couldn't everything happen in the same year?" This is the plaintive cry of the sophomore studying for his first history exam.

Haverford offers a well diversified and stimulating course of study in the field of history. The sophomore is exposed to World History, ably taught by Miss Utz and the Messrs. Breuninger, Huber, and Valenti. This course offers a study of European and Asiatic countries from ancient times until the present.

American History, expertly handled by the Messrs. Hughes and Livingston, constitutes the history program for juniors. Here the pupil studies every phase of American history, from the settling of Jamestown in 1607 to the conclusion of the Korean War.

And now, the "piece de resistance." Seniors at last, and history is not required. Surprisingly, though, most students choose to continue their study of history, and so two elective courses are offered. The more popular of the two is P.O.D., taught by Mr. Shiplett (for those unenlightened individuals, P.O.D. means Problems of Democracy). Students taking this course are accustomed to getting their fingers ink-smudged reading "Time" "Newsweek," and "U. S. News and World Report"—major requirements. P.O.D. deals mainly with current events and present world problems.

Last, but not least, for stalwart, ambitious, and book-laden seniors, Mr. Stinson offers his European International Relations course. Affectionately (?) referred to as E.I.R., this college-preparatory course covers three units of study—The Industrial Revolution; The First World War; The Second World War.

When a student completes his history course at Haverford, he will have a knowledge of the things that have made history.

Language

During his three years at Haverford, a student is introduced to the works of Poe, Irving, Chaucer, Shakespeare, Milton, and many other great literary names. This is all accomplished by our fine English Department.

In his sophomore year, the student is introduced to World Literature, taught by the Misses Abernathy, Galloway, and Helbig. In the junior year, American Literature, under the auspices of Miss Jones, Miss Ott, Mr. Crispin, and Mr. Leute, dominates the scene. English Literature, which constitutes the major part of senior English, is taught by the Misses Brown, Nickerson, and Pike.

All in all, after completing the English courses at Haverford, the student has had training in the use of English grammar and vocabulary, and has a working knowledge of world literature.

Do you have a secret yearning to travel to Europe, or do you hope to go to South America one day? Well, no matter where you choose to travel abroad, a knowledge of the French, German, and Spanish languages is a necessity. Haverford offers a two year program in these three languages. Miss Meacham presides over the French classes, Mr. Sell is in charge of the German classes, and the Misses Perkins and Ries teach Spanish.

Perhaps you are interested in ancient Rome and the Latin language. In that case, Miss Gilmore is the person to see. Latin at H.H.S. is taught for four years.

With such a varied linguistic program, the students of H.H.S. can become acquainted with the basic language techniques of the world's fundamental languages.

Commercial Arts

Typing, Shorthand, Commercial Law, Bookkeeping, and Office Practice make up the main commercial subjects. These subjects are under the guidance of Miss Neff, Mr. Bawn, Miss Bevins, Mr. Postpichal, Mr. Wiley, and Mr. Dolan. The commercial students are required to take two years of shorthand and two years of typing to be properly qualified for secretarial work after graduation. They also are required to take one year of Bookkeeping and a half year of Commercial Law and Office Practice, the latter teaching the use of the numerous types of machines usually found in an office.

Science

After toiling up 45 steps (count 'em), we finally reach the third floor, where we are immediately aware of a strange and peculiar odor. Could this be the chem labs? That's right, there are two of them. As we peek into the rest of the rooms, we find one physics lab and four biology rooms.

Situated on their own private floor of the building, the science rooms and labs are of the latest design and contain much equipment usually found only in college labs.

The chemistry rooms, cluttered with glassware, bunsen burners, and yards and yards of rubber tubing, are dominated by Mr. Schenck and Mr. Schmuckler. The lone physics room, with its high voltage control panel, is ruled by Mr. Bennett. The "keepers of the scalpel," the Messrs. Billy, Gwinn, and Smith, are in charge of the biology classes.

In keeping with Haverford's high academic standards, two advanced courses are offered. Mr. Bennett teaches second year physics and Mr. Schmuckler teaches advanced biology. Since the Fords enjoy these two courses very much, it is expected that second year chemistry will eventually be offered as well.

Well, whatever your problem, Miss DeCou, the school librarian, and Mr. Hallowell, her assistant, can no doubt help you find the answer.

In accordance with Haverford's varied educational program, art and music courses are offered. The Fords proudly boast of their fine Band, Orchestra, and A Cappella Choir. These three phases of school life are under the able direction of the Messrs. Fink, Tecco, and Trainer.

To all the aspiring student artists, cartoonists, and designers, Mr. Chuse, art instructor, is an appreciable friend and adviser.

Whether musically or artistically inclined, you are sure to find adequate aid and training under the supervision of this well-qualified staff.

After suffering under the strain of tumbling, apparatus, seasonal sports, and showers, Haverford High graduates are experienced enough to conquer almost any sport.

The girls develop their gymnastic skills in basketball, hockey, and volleyball. Spring brings badminton and softball, while on rainy days the girls play cage ball, which is a crazy cross between soccer and basketball.

In the fall the boys initiate the year with football followed by soccer, basketball, wrestling, and volleyball. The season when a young man's fancy turns to love is spent in softball and track. The boys also use the apparatus since the gym is well equipped with horses, rings, and parallel bars.

A new program of tumbling was introduced this year. The stunts included such weird things as fish flop, crane dive, and centipede.

This well-rounded course has made gymnastics an excellent part of the curriculum.

BEYOND THE CALL OF DUTY

Student Government

The EXECUTIVE COMMITTEE, composed of the heads of the Student Council committees and the presidents of the three classes, acts as an advisory committee. They hash over all the ideas suggested in Student Council and have the final vote on all of these ideas.

The ATHLETIC COMMITTEE was really at work this year sponsoring awards assemblies and inspiring our teams with those "crazy" pep rallies.

Those busy people trying to sell tickets to school functions are just hard-working members of the FINANCE COMMITTEE. Along with this duty, they also collect class dues in junior and senior homerooms.

The efforts of the ASSEMBLY COMMITTEE make possible the assemblies that we have enjoyed this year. They compose a list of appropriate programs from which the homerooms select the assemblies that they would like to see.

The imagination and endless energy of the SOCIAL COMMITTEE caused the Bermuda hops, the turn-about, and the Christmas Ball to be so wonderful. The committee met successfully the big challenge of being the first group to hold all their dances in the new gymnasium.

Student Council Convention

THE STUDENT COUNCIL

The Student Council is an organization that promotes good school relationships. It gives the administration a chance to get an inside look at the students and vice-versa. At the meetings students try to iron out some of the difficulties that invariably arise in school life. Student leadership can be fully exercised in the Council, not only by the officers, but also by the Council members themselves.

The workings of the Council should not stop at the close of each meeting. Every member should feel proud that his fellow students elected him as their representative. He must always strive to live up to this responsibility. All students are members of the Council, and they should exercise their rights to the utmost. No problem would be too big nor too small for the Council if the whole student body took pride in their form of government and backed it up.

The PUBLIC RELATIONS COMMITTEE was a new installation in our student government this year. The responsibility of this committee is to see that all Haverford social functions and other activities are adequately covered by local newspapers. Since this organization proved worthwhile this year, it will become a permanent part of our school government next year.

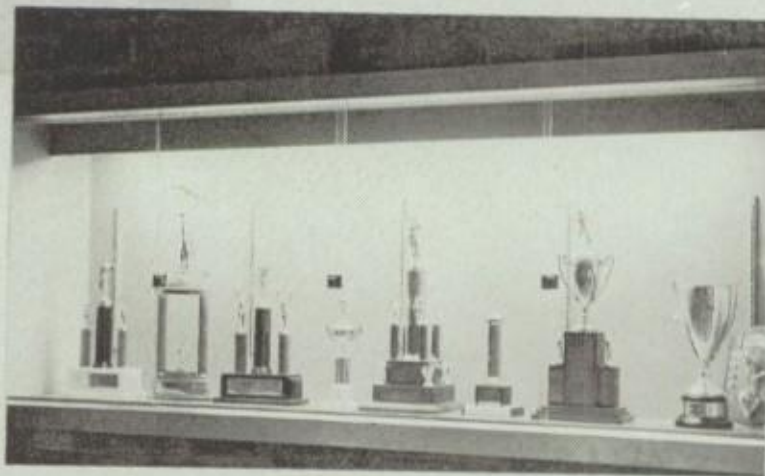

The ATHLETIC ASSOCIATION is made up of the principal, the athletic treasurer, the boys' and girls' athletic directors, and the two student chairmen and their assistants from the Athletic Committee. The Association's function is to give their approval to new sports recommended for addition to our athletic program, and to approve the team coaches selection of letter winning athletes.

National Honor Society

Hedge, Yermanock, Mallory, Rathmell, Ebersole.

Leadership, Scholarship, Character, and Service qualified 56 new students for induction into the National Honor Society, the highest honor Haverford can award. The Society inducts fifteen per cent of the senior class and five per cent of the junior class. Members must be in the upper third of their class.

The induction ceremony in November was marked by dignity, excitement, and nervous anticipation. Former members spoke on each qualification for entrance and read the names of the new members who carried candles with unsteady hands and repeated the creed. Joseph Davison, in charge of practice teaching at West Chester, discussed Van Dyke's theme, "Four Things a Man Must Learn to Do."

Both present members and alumni attended the annual Christmas Banquet held during the holidays. Alumni students had much to say about their college curriculum. Throughout the year the Honor Society participates in awards and merit tests.

This year's officers were Drew Mallory, president; Chick Hodge, vice-president; Millie Rathmell, secretary; and Bill Ramsay, treasurer. The members all thank Miss Collins and Mr. Howarth for their fine support.

Tri-Hi-Y

The aroma of cookies and brownies in the hall tells everyone that another Tri-Hi-Y sponsored "goodie day" has arrived. In addition to having "goodie days" the Tri-Hi-Y, under the sponsorship of Miss Lillian Hilbert, serves both the school and the community. It accepts the responsibilities of welcoming new girls to the school, handling the various charity drives of the community and school, and, in general, being available to help in any way needed.

Boys' Hi-Y

The Boys' Hi-Y, under the sponsorship of Mr. W. B. Hill, is an honorary service organization. Character, Leadership, and Service, as well as a willingness to serve the school and the community, are the basic requirements for membership.

Some of the many activities of the Boys' Hi-Y this year were providing Christmas baskets for needy families, raising money for World Service Projects, collecting books for hospitals, and packing clothes for foreign aid.

Greystones

A school year without an issue of GREYSTONES—unthinkable! Often it appeared that this time would be the exception. Until the deadline was met, worry about it was a constant presence in room 233.

At the helm were Mr. Livingston, Thelma Titus, and Ed Reiner. Although the rest of the officers and crew were frequently AWOL, the journey was finally completed. When the crew had not performed their various duties of selling, drawing, writing, editing, and typing they felt in imminent danger of walking the plank.

During the voyage menacing reefs and deep shoals were skirted. Heavy storms hovered over the path of the vessel. Finally on the horizon appeared the happy vision of a safe harbor and a job completed at last. With a farewell look at their ship, the officers and crew vowed that although the seas were rough, they'd gladly sail the course again.

Handbook

It is indispensable! It's indispensable! What is indispensable? That midget volume of vital information on the activities of H.H.S., namely the Handbook, published under the guidance of Mrs. Constance Bevins and distributed free of charge to holders of Economy Tickets is indispensable. Others may purchase the same from Mr. Alex Postpichal for a paltry two bits.

Fordian

FORDIAN make-up day is a conglomeration of editors, glue, reporters, and galley proofs. After much puzzling, the page-editors fit the stories into the arrangement for the paper's forth-coming issue. The whole operation has been punctuated by groans, laughter, and pieces of Miss Helbig's candy. It ends with delighted exclamations as the paper is finally "put to bed."

The FORDIAN has consistently won first and second awards in both CSPA and PSPA press convention contests.

Pen & Ink

Armed with two gallons of paste, and a year's supply of cookies (for those long, long make-up days), the members of the PEN AND INK staff set out to conquer the literary world "pens in hand" four times a year.

Sponsored by Miss Jane S. Pike, who was assisted this year by Miss Mary Galloway, the PEN AND INK is a magazine open to anyone with an interest either in literature, in creative writing, or in art. Many an aspiring bard was surprised, as well as delighted, to find his creation nestling on a magazine page, complete with letter-head and art work (Nobody told me!).

The recipient of many prizes, the PEN AND INK exchanges with over thirty other literary magazines, including some in Germany, England, Peru, and Australia.

All Work and No Play . . .

The STAGE CREW is responsible for building scenery, staging, and lighting all high school productions and other outside agencies. This is an active group that meets daily with a limited membership of twelve boys, under the guidance of Robert Brown.

The activities of the AIRPLANE CLUB are primarily concerned with learning more about navigation, communications, and the theory of flight. The boys see films on aviation and build and fly model airplanes. Every year the club takes its annual trip to the Naval Air Station at Willow Grove. The club also maintains an associate membership with the Philadelphia Model Airplane Association.

COLOR CORNER, sponsored by Mrs. Constance Bevins, offers to the students of Haverford everything from pom-poms and bracelets to sweatshirts and stationery. Teddy bears dressed in the school colors were a very popular specialty this year.

This organization, along with a small amount given by the school board, is responsible for paying the cost of our literary magazine, the PEN AND INK.

The RADIO CLUB is open to students of any class who are interested in the technical side of radio broadcasting. Members are scheduled for various activities in small

Meetings are held once a week under the supervision of Mrs. Katherine Yerger, the club sponsor and school nurse.

The **LIBRARY CLUB**, under the sponsorship of Miss Elinore DeCou, renders valuable service to the school by performing the routine duties of the library such as charging and shelving books, typing, filing, and keeping things in smooth running order for the convenience of everyone at Haverford.

The boys of the **PROJECTION CLUB** are responsible for having projectors and movie screens available for classroom use. Those who have learned to properly use and adjust the projector receive a license which entitles them to run a projector whenever necessary.

The **RIFLE CLUB** is open to any pupil interested in guns. The members learn safe handling of their guns and can qualify for the National Rifle Association and also receive school credits. The club is under the sponsorship of Harold Musser.

The **SECRETARIAL CLUB**, under the supervision of Miss Irene Neff, is made up of girls taking the commercial course. The club's biggest job is the typing and mimeographing of various teachers' notes and tests. The members also type and mimeograph Student Council notes.

The **ART CLUB**, under the expert leadership of Mr. Maurice Chuse, Haverford's art director, meets every Wednesday morning at 8:30 A.M. Throughout the year the Art Club is fortunate enough to engage various speakers, see a variety of photographic slides, and work on many school art projects. At the end of each year the club takes a field trip to some interesting place pertaining to the field of art.

The boys' and girls' BOWLING CLUBS are open to all students of any grade. No previous experience is necessary and instruction is free for all beginners. Those bowlers of experience are placed on a team to compete with other neighboring school teams. The clubs have practice once a week and are always looking for new "high-scorers."

Latin is not dead at Haverford for those students who are members of the JUNIOR CLASSICAL LEAGUE. Sponsored by Miss Bernice Gilmore, the J.C.L. gives its members a greater appreciation of the influence of ancient Rome on modern life.

The annual Latin Rally, held in Irvine Auditorium; Saturnalia, a Roman holiday which corresponds in some respects to Christmas; and the traditional picnic at Valley Forge create much enjoyment for club members.

The FUTURE HOMEMAKERS OF AMERICA met with enthusiastic support this year, when it was introduced as a new club at Haverford by Miss Mellinger. It is primarily a service club which tries to promote better family living and community relations.

World Wide Workshop.

A Dull Boy

The COLLEGE CLUB, under the direction of Miss Lillian Brown, attempts to aid students in their selection of colleges. Catalogs are available for reference; and there are speakers at meetings who tell of college requirements, scholarships, and just what college life is like. The club also has added various social service projects to its list of activities.

The WORLD WIDE WORKSHOP, under the direction of Miss Elizabeth Ott, is open to all students who have an interest in promoting friendship throughout the world. Taking trips to foreign restaurants, seeing foreign movies, and corresponding with students in foreign countries are only a few of the activities which help students to become acquainted with the habits and customs of other countries. The main projects of the W.W.W. are to pack a Christmas box for German children at Ericaschule, our exchange school, and to provide the funds necessary to send a student from Germany to Haverford for one year.

The HI-Q TEAM, directed by Theodore Huber, was composed of five seniors this year. The team met three times, but did not score high enough to be eligible for the finals.

Twenty schools of Delaware County participated in the meets. Each meet was broadcast over FM radio the following Sunday. Subjects covered in the quiz were Shakespeare, World and American History, World Literature, music, mythology, physics, chemistry, biology, and mathematics.

This year HHS took another step forward in helping to better education in America. Under the direction of Miss Margaret C. Jones, the F.T.A., FUTURE TEACHERS OF AMERICA, was formed. Its charter members are in the first third of their respective classes and were elected on the recommendation of any two Haverford teachers.

The F.T.A. has two objectives: to encourage more young people to become teachers, and to guide those already interested in becoming better teachers.

There's Music in the Air

A Cappella Choir.

John Trainer, Haverford's new BAND director, along with six majorettes and one drum major, produced many new routines to entertain the crowds at the Fords' gridiron contests. During the winter months the band performed in assembly programs and made recordings which were presented on radio. In the spring band members took part in the Memorial Day Parade, the Spring Concert, and the Graduation Exercises. All in all, it was a busy but successful year.

"8 o'clock rehearsal this morning!"—and away flies the music student holding his music, an instrument, and his books in a fashion that only the music student knows. "What, late again!" The ORCHESTRA, under the capable direction of Mr. Rudolph Tecco, is composed of eighty students, and plays for the annual spring concert, the operetta, assembly programs, other schools, and dedications.

"You adolescent high school kids, sing! Sopranos, stand up! Don't forget to sign the list!" The students who listen to these exclamations comprise the A CAPPELLA CHOIR. The Choir, directed by Mr. Paul Fink, participates in school programs, club and public functions, and gives performances at other schools throughout the year. Two major contributions to the entertainment program are "Amahl and the Night Visitors," presented at Christmas time, and the annual operetta, usually presented in the early spring. The Choir also sings at the annual Spring Concert.

Let's Go,

Maestro

Beneath the official auspice of a British Union jack, and under an English sky, "H.M.S. Pinafore" was launched this year by the music department, commanded by Paul E. Fink. Love versus rank was the keynote of the show, as Josephine, daughter of Captain Corcoran, fell in love with a common sailor, Ralph Rackstraw, although her father had ambitions of marrying her to Sir Joseph Porter, Knight Commander of the Bath. Her plans to elope with Ralph, after being assured that "love levels all ranks," failed when despicable Dick Deadeye warned the Captain of their flight. All ended happily, however, as Little Buttercup revealed that while she was practicing baby farming many years ago, she included among her infant charges the Captain and Ralph; and she accidentally mixed them up. Since Ralph was really the captain, and the Captain really Ralph, the disturbing element of rank was removed, and the lovers were rejoined. The Captain-turned-sailor found happiness with Little Buttercup, and the pompous Sir Joseph contented himself with his cousin, Hebe.

From the wonderful scenery to the excellent cast, the whole show was an unforgettable performance.

H.M.S. Pinafore

Amahl

Once again the plaintive tune of a shepherd's pipe heralded Gian Carlo Menotti's beloved and traditional "Amahl and the Night Visitors" to Haverford's stage. Under Paul E. Fink, choral director; Theodore Huber, stage director; and Rudolf E. Tecco, orchestra director, the combined chorus and orchestra rendered a truly memorable performance.

The story of Amahl unfolds one cold December night, almost 2000 years ago, as a little crippled boy plays his flute outside the poor cottage where he lives with his widowed mother. Amahl continually exasperates his mother with tales of wonder. When he speaks of a wonderful star he has seen, she, distraught at their poverty and dismal future, refuses to believe him.

During the night the fabled oriental kings and their page stop at the cottage, seeking shelter.

While all are asleep, the mother, determined to give her child the care he needs, attempts to steal some of the gold. The page catches her, and Amahl feebly defends her. The kings offer to let her keep the meager sum; but overcome with remorse, she returns it, wishing that she too might present a gift to the tiny Savior. As Amahl unselfishly offers his crutch to the child, a miracle occurs and he walks.

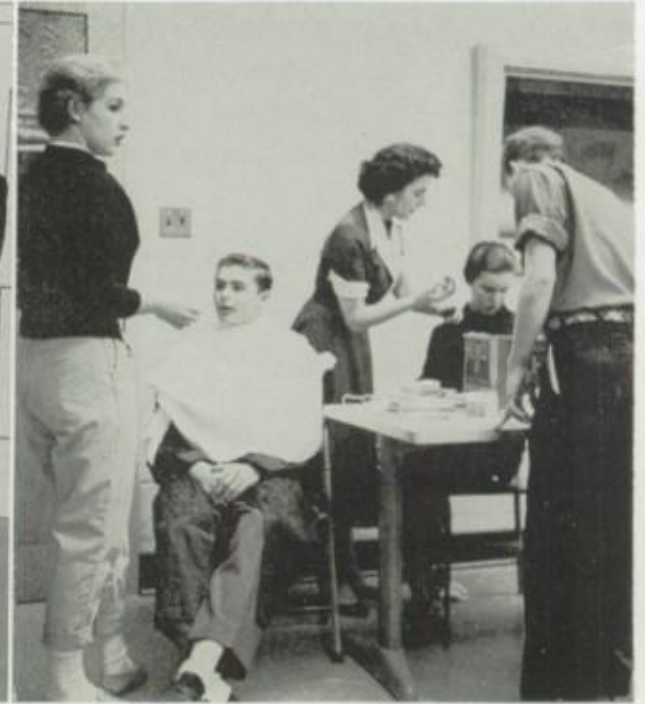

As the opera closes, Amahl's flute is heard in the distance, while bearing the crutch on his back, he follows the three kings on the way to the Child.

Make up

From the moment the curtain was raised to reveal the shipboard stateroom of Emily and Cornelia to the very end of this year's Senior Play, the audience was kept in a continuous state of amusement. Miss Ott's drama class, assisted by a few well chosen male draftees, presented a most delightful, enjoyable play. This is evidenced by the fact that a good time was had by all—actors and audience.

\$64,000.99 Challenge

Last year's unforgettable "money moocher," I. T. Smearsoff, came forth as champion of champions to challenge all contestants in the \$64,000.99 Challenge, the All-School Show theme for this year.

In a plot of his show colleagues to rob him of every cent, Smearsoff was met by an assortment of rare personalities: Ineeda Heer Green; Luigi Batsamatsa, professional spaghetti maker; pistol-packing Marshall Quiet Burp; and Dennis Themenace. Smearsoff was overcome with the loss of all his money and in a near state of shock, when the conspirators revealed that the whole show had been a dress rehearsal.

An unusual conglomeration of talent, fast moving humor, and rollicking slapstick produced a memorable performance.

The Finale—All good things must end.

I Could Have

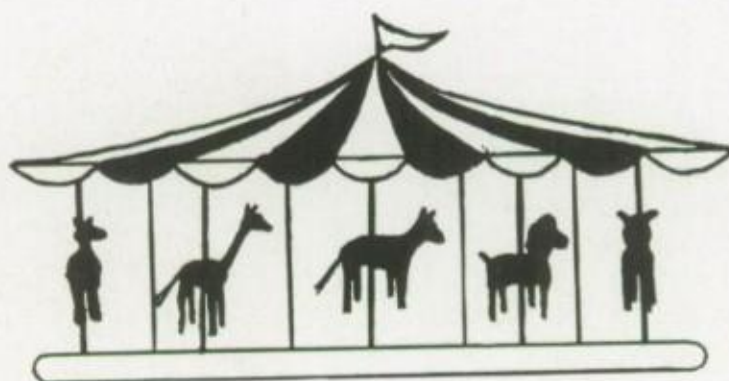

The last dance.

The Junior Prom of the class of 1957, a beautiful circus fantasy land entitled Carousel, was held on the night of May 12, 1956.

Many hours were spent in producing the all-important carousel which was done in pastel shades of aqua, pink, and white, sprinkled with glitter.

The climax of the evening was the crowning of Queen Sylvia Loewen as she sat on her throne surrounded by her attendants Barbara Cobourn, Mary Ellen Jones, Joan Perry, and Barbara Timmons.

The music of Ray Carr added to the atmosphere to make this the most wonderful night of the year.

Center, Queen Sylvia Loewen.

Court: Barbara Cobourn, Joan Perry, Mary Ellen Jones, Barbara Timmons.

Danced All Night

The Grand March.

Saying hello.

Manhattan Skyline was the theme of the Class of 1957's Senior Ball. The romantic theme was carried out in the decorations—skyscrapers in the distance, a shimmering multi-colored fountain at one end of the dance floor, and a sunset casting a strange glow over the scene.

The Grand March, a tradition at Haverford, highlighted the dance, making this evening such a special occasion for all seniors. The Blue Notes supplied the music.

Even though the plans for the ball got off to a slow start, the Class of 1957 rose above all preceeding classes in that more tickets were sold to Manhattan Skyline than to any other prom in the past.

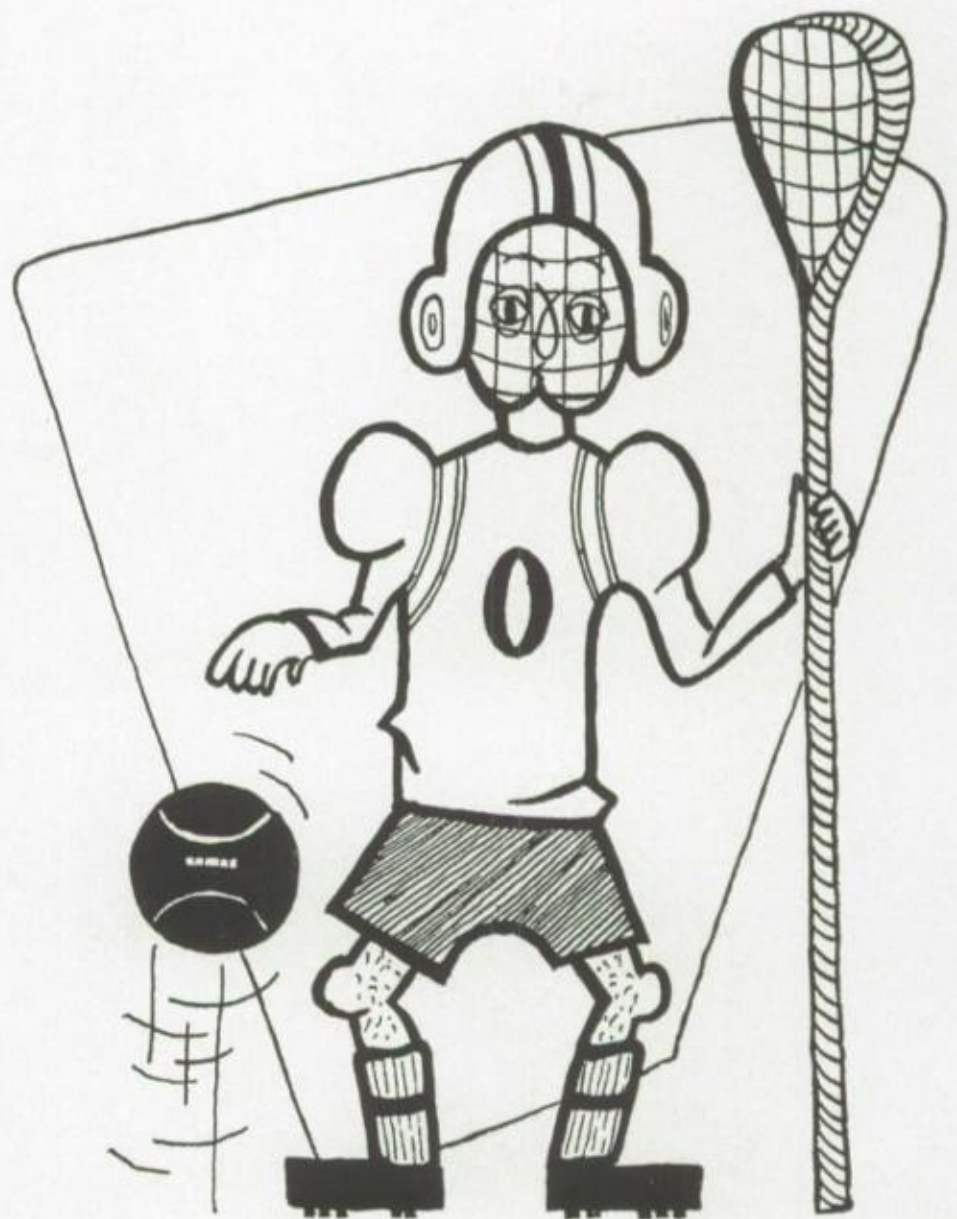

Haverford High, thy praise we'll ever . . .

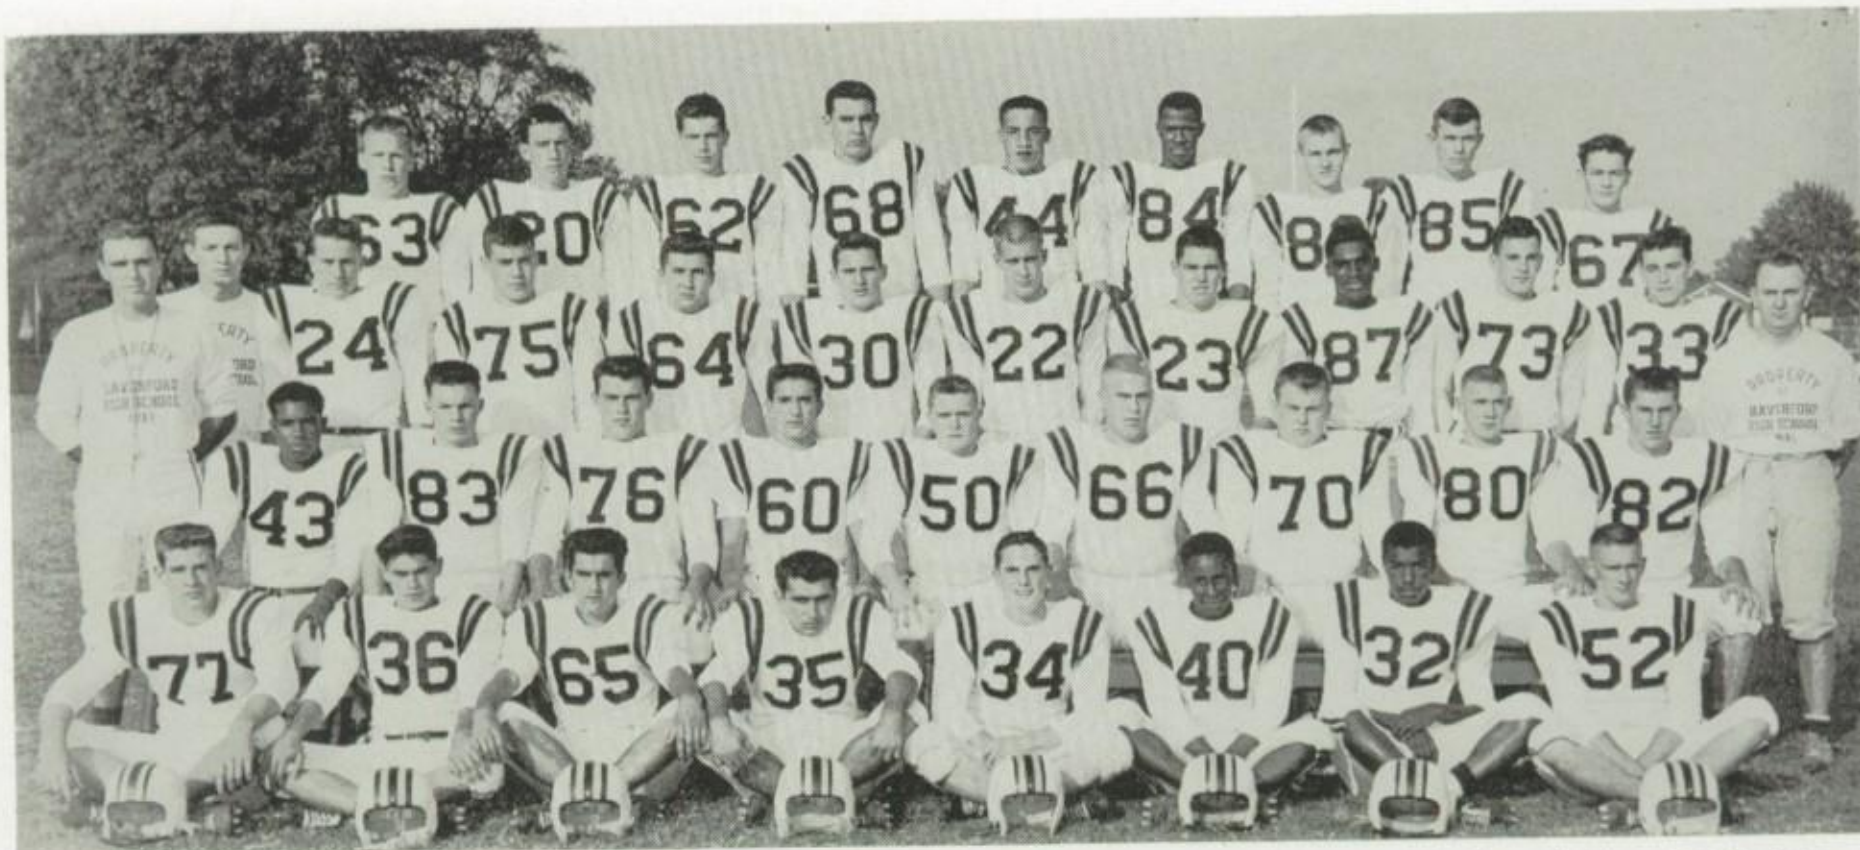

The receiving line.

Football

The Ford Eleven's 1956 football season, under the able coaching of James Shiplett, Paul Dobransky, and Richard Smith, was the best since 1945. The reason for this success lies in the fact that the eleven acted as a single unit, composed of equal players with exceptional ability, and not just one or two stars. Another important factor effecting the impressive record was the team's desire to win—the most important factor for success in any field.

The 1956 Fords were rated the best football team in Delaware County and the top defensive team in the Suburban I League. The team, captained by Tom Haly and Chuck DiPuppo, compiled a 7-1 record.

The number of awards bestowed on individual players and the tremendous school spirit is unrivaled in the entire history of Haverford. The games were hard fought, and people agree that the spectators witnessed some of the best, if not "the" best, football ever played in this area.

Soccer

The Soccer Squad, coached by Ted Keyser, played a very successful season finishing second in the Suburban I soccer league. They scored a triumphant victory for HHS by beating Lower Merion and giving this rival team their only loss in the league this year. The squad earned a 6-3-1 league record and 6-6-2 overall record.

Three of the squad made first team on the All-Suburban Soccer Team, and one received honorable mention.

The junior varsity displayed teamwork in a brilliant season of eleven wins and five losses. These men also beat Lower Merion and topped Upper Darby who had been previously unbeaten and unscored upon, and experienced a six game winning streak.

Mr. Keyser and Mr. Hughes, junior varsity coach, merit praise for guiding these teams through an excellent season.

Hockey

According to American standards of a good team being determined by the number of games it wins, this year's hockey season was not a success. But if the team is measured by English standards of how well the game was played, then the hockey season was a very successful one. We congratulate the team under the leadership of Miss Jane Pike, coach; and Millie Rathmell, captain; for their victory over the despondency of defeat. It is easy for the team and the student body to ride the crest of victory, but it is difficult to battle through the trough of defeat. The team and student body are to be felicitated for maintaining the highest standard of Haverford school spirit during a season that tried the spirit of the team and the coach.

Cross Country

The Cross Country team, under the able coaching of Robert Schenck, had its best season in the school's entire history. The backbone of the team was comprised of seniors, and the men of the "fleet feet" went right up the road to victory to the State Championship meet, where they finished fourth.

The season started with a shutout victory over Abington. The Harriers then allowed only one man from Cheltenham to finish in the first eight. We crushed Lower Merion, shut out Ridley Township, and nosed out Chester.

The "Schenckmen" finished second to Upper Darby in the District I meet, but avenged this loss by easily winning the Marcus Hook Street Run Cup. This was topped off with a fourth place finish in the state meet, again beating Upper Darby. This was the best showing a team from this part of the state has made there in many a year.

Congratulations, Harriers!

They're off!

Basketball

Haverford's basketball team, under the direction of Steve Juenger, got off to a slow start this season. After finishing runner-up in the Kiwanis Tournament, the boys dropped their first three league contests. However, at this point the Fords, paced by Kaemmerlen, Bowers, and George, proceeded to win ten out of their last eleven games, earning a third place berth in Suburban One. Undoubtedly, the high points of the season came

with victories over Lower Merion (59-58) and Norristown (50-49). Al Kaemmerlen, who scored the winning basket in the Lower Merion game, later received the Most Valuable Player Award.

Haverford reverses for two points

The wrestling team had a successful season this year under the able coaching of Doc Harter and Al Billy. The team had a slow start, losing most of their first meets; fortunately these were non-league meets. But they concluded with a stronger finish due to their victory over several local high schools. These victories gave the team the third place in the league. Since the team consisted mostly of underclassmen, everyone is looking forward to an excellent season next year.

Haverford's swimmers, coached by Miss Lillian B. Hilbert, came within one point of having an undefeated dual meet season. Only Lower Merion bested the mermaids in an exciting contest which was divided in the last event. Victories over Upper Darby and Abington highlighted the wonderful record of victories marred by only one defeat.

Co-captain elect, Dottie Christman, was a triple winner in the District I P.I.A.A. meet, while Pay Richter, captain, captured the diving title for the second year in a row. Thus, Haverford was able to finish fifth in the district meet.

Miss Hilbert and the team members are to be congratulated on their team spirit.

*Right, Two points for Haverford
Bottom, Easy does it*

The girls' varsity basketball team, coached by Miss Margaret Ries, had a triumphant season this year, sporting five victories, two defeats and a tie. On January 11, the season was officially opened with the Lower Merion game, which the girls unfortunately lost. As the season progressed the team improved tremendously with the moral support of their injured captain, Millie Rathmell. With only six seniors on the team, it was up to the juniors and the three sophomores to give their faithful assistance, which they so earnestly did.

The peppy misses who lead the cheering at the football and basketball games must possess such qualities as school spirit, leadership, reliability, cooperation, neatness of appearance, aggressiveness, a strong voice, and a sense of rhythm. The cheerleaders do much to help school spirit grow throughout HHS, and they add a lot of pep and vigor to the football and basketball games.

The six drum majorettes and one drum major also add color and zest to the football season. They participate in routines and drills with the band to entertain the crowds in the half time performance.

From the Editors:

The material between the covers of GREYSTONES 1957 is the work of many people. Although the yearbook staff has played the major role in compiling this volume, we would like to extend our thanks to those members of the senior class who, although not members of the staff, contributed ideas, opinions, and articles which were very helpful to us.

Our sincerest thanks to Mr. Robert A. Livingston, the sponsor of GREYSTONES, who helped, coaxed, and tolerated us through the long months of confusion and work.

We also wish to thank Mr. Gerald C. Harter, our photographer; Mr. Arthur Walter, who helped with proofreading; Mr. Harry Dolan, who handled the financial end of GREYSTONES '57; Mr. Luedecke of Luedecke Studios; Mr. N. Clark of Clark Printing House Inc.; Mr. R. S. Kamp of RK Engraving Co., and Mr. Maurice Chuse, who assisted the art staff.
